Featured Articles

Simplifying Data Transformation

The true power of data is unlocked when it's **transformed**—consolidated, cleaned, structured, and analyzed—to provide meaningful insights. Automic Automation facilitates dynamic data pipelines for reporting, predictive analytics, and IT operations. [Read more in our blog!](#)

Harness Automation Intelligence That Restores Trust and Prevents Fire Drills

The success of your business depends on ensuring applications deliver accurate data, seamless performance, and uninterrupted service. However, automation failures can make this difficult. Automation Analytics & Intelligence (AAI) provides the insights and control you need to restore trust, prevent disruptions, and optimize your automation landscape. [Gain complete visibility today!](#)

Automic Saas 24.5 - GenAI Powered Filter Assistant

Automic SaaS 24.5 brings GenAI-powered filtering and sorting to your workflow. Just type what you need in plain language, and the AI Assistant finds it instantly. Filter tasks, jobs, agents, and more with ease. [Check it out now!](#)

New Case Study!

A large regional bank scaled from 30 to 150+ applications running on Automic Automation — all through organic growth. In this blog, we share how the bank uses Automic to power everything from financial processing to cloud integrations, and why teams across the org are eager to adopt it. [Read More!](#)
